

SYED AYAN HAIDER

WEB DEVELOPER | PROJECT COORDINATOR

Software Engineer and Web Developer with over 3 years of experience building websites and web applications across freelance work, remote startups, and client projects. Recently graduated with a BS in Software Engineering from PAF-IAST, Pakistan (June 2026). Experienced in full-stack development, project coordination, and team recruitment — with a solid record of delivering real, working products on time.

EXPERIENCE

WEB DEVELOPMENT

2022 – Onwards

Freelance · Vibstie · Zaviyel · Client Projects

A web developer with experience building responsive websites and web applications for startups, freelance clients, and academic projects. Contributed to real products including Vibstie, Zaviyel, MedValidate AI, a Hospital Management System, and an Airline Airport Management System. Worked across the full stack — frontend development, backend integration, REST APIs, database design, testing, debugging, and deployment. Delivered clean, functional products built for real users.

PROJECT COORDINATION

2024 – 2026

Vibstie · Joystie

A project coordinator with experience managing development workflows at Vibstie and Joystie — both remote startup environments. Planned sprint cycles, assigned tasks, tracked milestones using Jira and MS Teams Planner, and kept communication clear between developers and stakeholders. Helped both teams stay organised, hit deadlines, and ship features without unnecessary delays.

RECRUITMENT

2025 – 2026

Joystie · Brainex World

A recruiter with experience managing full hiring cycles at Joystie (US-based remote startup) and Brainex World. Wrote job descriptions, posted roles, screened candidates, coordinated interviews, and handled onboarding. Focused on finding the right people efficiently while keeping the process professional and straightforward for every candidate.
