Open source & GitHub

EXPERIENCE

WEB DEVELOPMENT

Freelance · Vibstie · Zaviyel · Client Projects

- Built responsive websites and web apps for startups, freelance clients, and academic projects
- Contributed to Vibstie, Zaviyel, MedValidate AI, Hospital & Airline Management Systems
- Full stack — frontend, backend, REST APIs, databases, testing, and deployment
- Delivered clean, functional products consistently on time

PROJECT COORDINATION

Vibstie · Joystie

- Managed sprints, task assignments, and milestones at two remote startups
- Used Jira, Trello, and MS Teams Planner to keep teams on track
- Bridged communication between developers and stakeholders throughout

RECRUITMENT

Joystie · Brainex World

- Managed full hiring cycles — job posts, screening, interviews, and onboarding
- Supported team growth at a US-based startup and a local organisation

NOTABLE PROJECTS

MedValidate AI

medvalidateai.vercel.app

AI healthcare platform — Next.js, Supabase, LLaMA/Groq

Zaviyel

zaviyel.com

Business website — custom features, UX improvements

Vibstie

vibstie.com

Startup platform — full-stack, responsive design

Mgmt Systems

Hospital & Airport systems — academic software builds
